How to plan the perfect kitchen

YOUR GO-TO GUIDE TO GETTING IT RIGHT

Look for inspiration

"In the early planning stages, be on the lookout for kitchen looks you love. A moodboard is a great way to capture anything that appeals - cabinetry colours and textures, benchtop surfaces, paint shades and handles," says Alisa Fraser, Kinsman ambassador and former *The Block* contestant. "Collating all your favourite pictures will also help you zero in on your soulmate design." Tip: create your own moodboard using everything you love in this magazine.

Plot your wishlist

The kitchen is the hardest working room in the house, so it needs to function well. "That means you need to know exactly what you want in your new kitchen, to ensure the design and installation process runs smoothly," says Alisa.

Here are some questions to ask yourself before talking to the professionals.

- Is there a style of kitchen you really love?
- What appliances do you use in your kitchen?
- What is your budget for cabinetry, appliances and benchtops?
- Will your kitchen flow to dining, lounge or outdoor areas?
- Do you entertain a lot?
- Do you need to keep an eye on children while you cook?
- What's your storage preference? Deep drawers? Cupboards?
- What sort of benchtop? Stone? Solid surface? Laminate?
- Would you like a butler's pantry?
- Would you like a study nook in your kitchen for life admin?

Talk to the experts

COASTAL OASIS

WELCOME TO DARREN PALMER'S MAGICAL KINSMAN KITCHEN.

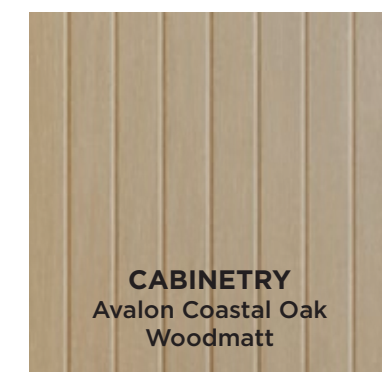

Kinsman was thrilled to partner with interior designer and The Block judge, Darren Palmer, to transform his family home in Sydney's iconic coastal suburb Bondi.

Due to its beachy location, the colour palette brief was a contemporary coastal aesthetic. Kinsman's Coastal Oak Woodmatt doors were the perfect pick, particularly as Darren selected our Avalon design which features beautiful V-groove detailing. We then paired the timber-look cabinetry with crisp white handles to bring the look together.

The kitchen is full of 'wow factor' with the banks of Avalon Coastal Oak Woodmatt cabinetry and White Matt Knurled Bar handles taking centre stage. As well as a statement island bench which doubles as a casual dining table.

SERENE SANCTUARY

KINSMAN PARTNERED WITH ALISA AND LYSANDRA FRASER AS THE KITCHEN, LAUNDRY, AND WARDROBE SPONSORS IN THEIR THE DESIGN DUO SERIES: TWIN OFF.

"The result is a space that seamlessly blended style with practicality, making cooking and entertaining a joyous experience."

- ALISA, DESIGN DUO

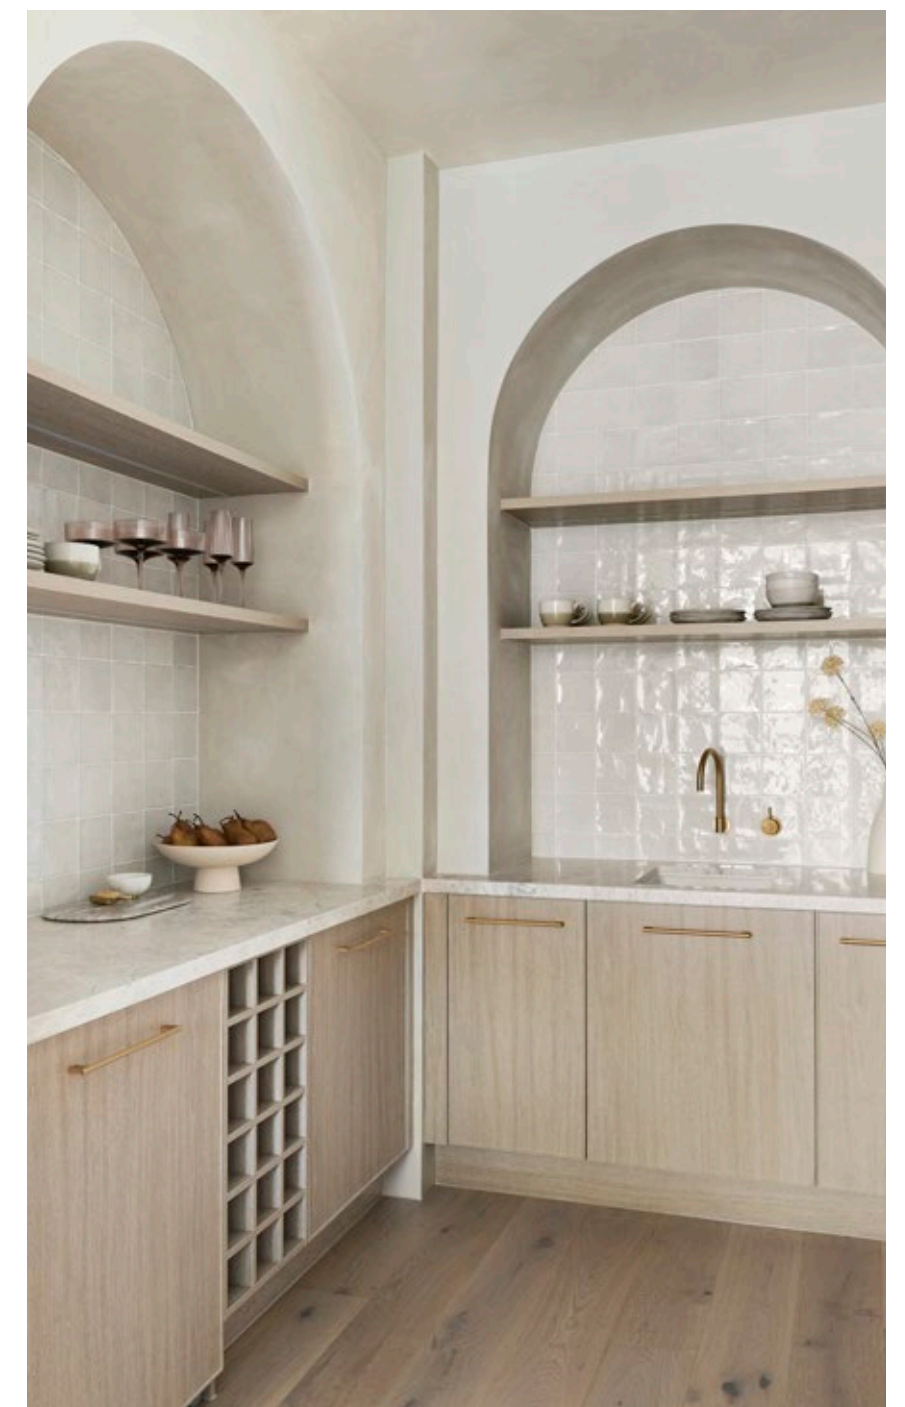

In keeping with the rest of her home, Alisa has produced a soft and serene kitchen look with a combination of our popular Camden doors in Coastal Oak Woodmatt, teamed with Brushed Brass Bar handles for a touch of glamour.

Alisa pared the space back, opting for no wall cabinetry to keep the space spacious and airy, which can be seen in the choice to select benchtops and splashbacks in a very similar shade to our joinery. Integrated appliances such as the fridges and dishwasher are hidden behind matching joinery panels to not distract the eye, creating a seamless look.

Balancing form and function, the kitchen and pantry offer a wealth of storage solutions such as our Ninka Bins, Inner Drawers and Cutlery Trays. A blend of drawers and cupboards feature throughout ensuring there is a place for everything. A generous island bench creates the perfect gathering place within the kitchen and home, offering plenty of seating space for friends and family to gather while entertaining.

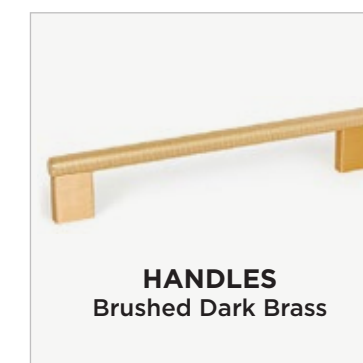

A butler's pantry is another welcome feature within the kitchen design, allowing Alisa to hide mess away while entertaining. The neutral colour palette and finishes have been continued into the pantry which showcases arched details, brass hardware, and beautiful tiles across the splashbacks.

BEAUTY DEFINED

THE ESSENCE OF MODERN ELEGANCE

Luxury can mean many things, but when it comes to modern kitchen design, it stands for premium appliances, soft lighting and a whole lot of marble.

An oversized kitchen island that doubles as a bar-style space to entertain goes a long way to bringing that luxe feeling to life.

"You'll want to keep your appliances out of sight where possible, either in the butler's pantry or integrated behind cabinet doors," advises Alisa Fraser, Kinsman ambassador and former *The Block* contestant.

The one appliance that should be on show in modern luxury kitchen design? A wine fridge, of course. A wine fridge is the epitome of opulence, and is sure to impress your guests as you gather around your marble waterfall kitchen island for weekend drinks.

Don't underestimate the role that your appliances play in making a style statement in your dream kitchen.

TRIED, TRUE AND ALWAYS TIMELESS

In a Castlecrag home in New South Wales, this modern design serves up lashings of white finishes with a touch of black for contrast.

"White just works," says Lysandra Fraser, former *The Block* contestant and Kinsman ambassador. "Unlike some hues that can date with the passing of time, white is always right. It can also make a space feel bigger, so it's a great option

if you want to visually extend a snug floor plan." Inspired by modern Shaker style, this design features Kinsman's Somersby doors in Classic White Matt, with plenty of storage in the pantry as well as under the large island benchtop.

"The modern matt black drawer handles tie in with other black accents, like the window frames and tap, to deliver a contemporary, luxe feel," says Lysandra.

CLASSIC WITH A MODERN TWIST

There is nothing more charming than a classic country kitchen, and while this style may have its roots in the past, it's also a modern-day favourite. Here, Shaker-style cabinetry in a navy blue hue, paired with beautiful brass wire grilles overhead, is a nod to traditional kitchen design, while marble benchtops and brass cup pull handles add a sense

of luxury. Showcasing appliances is key, says Alisa Fraser, Kinsman ambassador. "In a classic country kitchen, cooking appliances are never hidden away. The oven is the heart of the space and the hero of the design," she says. "If you love the look of a country kitchen but want to give it a contemporary twist, look for tapware with a modern profile."

THE LIVING'S EASY WITH FAMILY-FRIENDLY DESIGN

Light and bright with a high-end feel, this minimalist design also scores major points for functionality. "This kitchen is all about modern family living and that means plenty of storage, plenty of work space, and plenty of space for friends and family to gather," says Anouk Seer, Head of Design and Product at Kinsman.

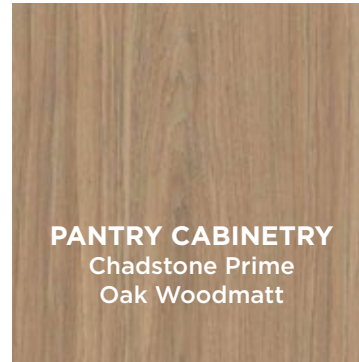

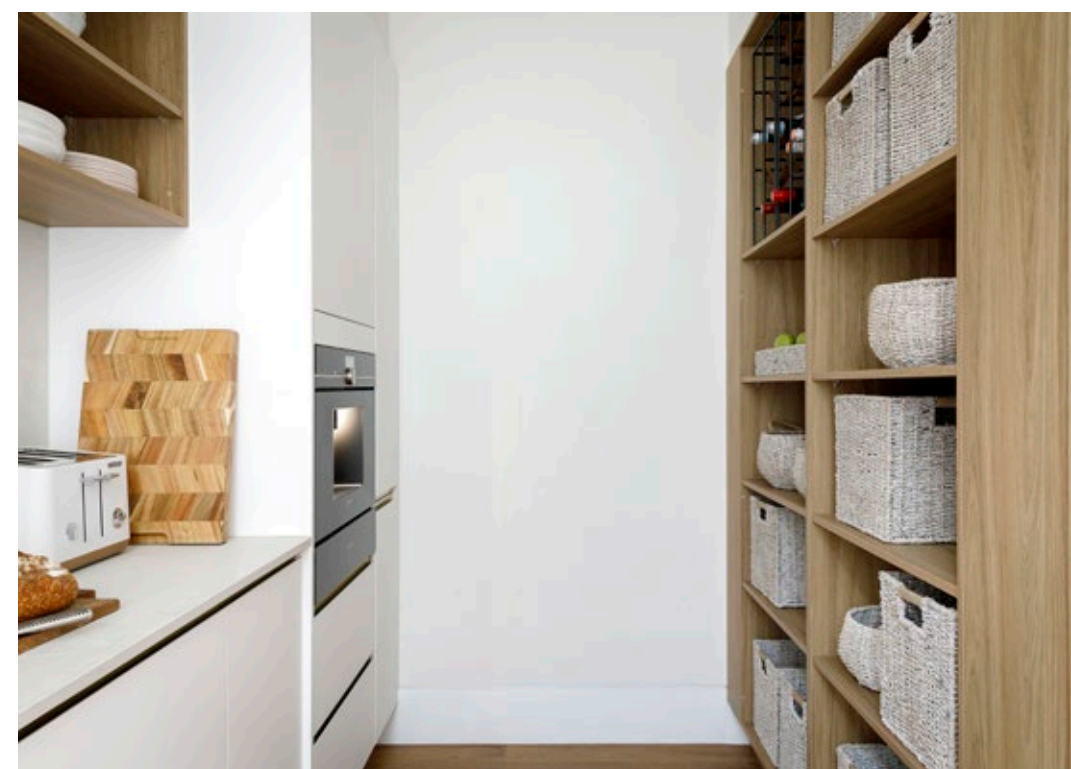

"We're talking miles of bench space, overhead cupboards, deep drawers in base units, as well as a walk-in butler's pantry."

Central to the minimalist design is a timber curved island bench and matching curved timber wall that wraps around into the pantry.

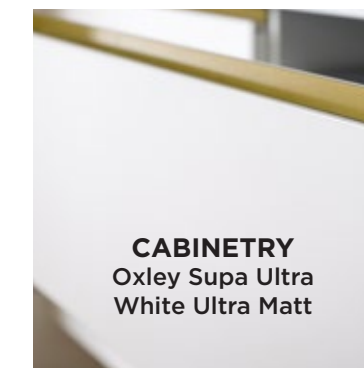

"The white-on-white colour palette is complemented by touches of timber and gold," Anouk says. "Our new Marq handles in UltraGold add instant glam and accentuate the design with not a handle in sight."

BOLD & BEAUTIFUL

FUNCTIONALITY AND FORM SHINE BRIGHT IN THIS SPACE

Located just 40 minutes north of Melbourne's city centre, Sunbury is a beautiful location filled with vineyards, native wildlife and a growing foodie scene.

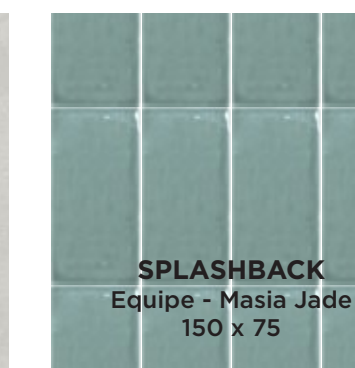

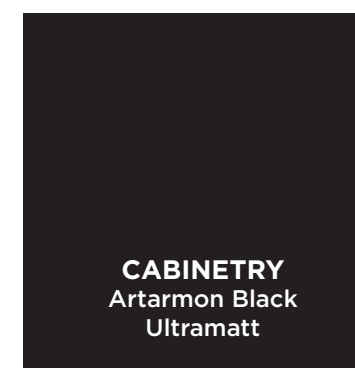

For homeowners Danielle and Michael, building a new home in this stunning location presented an opportunity to create their dream kitchen and laundry.

The L-shaped design of the kitchen is perfect for open-plan living, with the cooking, cleaning and prep zones all within easy reach of one another. The centerpiece of the kitchen is the generously sized island bench, which spans a generous 2.9 metres. This provides plenty of seating, additional storage and a feature Bora Induction Downdraft cooktop.

The laundry, located towards the rear of the house, mirrors many of the stylistic elements of the kitchen. The use of Kinsman's Avoca cabinetry in a matte 'Classic White' and cheerful teal tiles within the butler's pantry tie the two spaces together. The fluted joinery dominates the room, with white tones chosen to bounce light around the room and create a sense of space. The sleek matte black handles complement the lines of the joinery, while the wall cabinets feature Kinsman's Volpato handles for a seamless look.

"The Avoca door profile is stunning! It gives our monochrome space beautiful texture and originality; we always get compliments about it." - DANIELLE, HOMEOWNER

Opting for white Avalon cabinetry and VJ panelling, which has been used throughout the rest of the home, with a stone benchtop measuring a 4.2 metres long and 960mm wide to create a luxurious Hamptons/Coastal feel in this kitchen.

A stylish kitchen at a value price point - it took Kinsman to think of it. With Kinsman's Studio Kitchens Range, all cabinetry is delivered fully assembled, saving you time and money. And the best part is, you can still achieve a bespoke look, be it Scandi, country chic or industrial.

"Our Studio Kitchens Range is a curated collection of our most popular cabinet sizes and door finishes at a sharper price point," says Anouk Seer, Kinsman's Head of Design and Product.

"You then choose from a range of laminate and Caesarstone® benchtops, to tailor the look to your taste. It's a great

solution for the budget-conscious."

The owner of this Scandi-style kitchen in Brighton, Victoria, went the Studio Range route, choosing a neutral palette to create a sense of space.

Contrasting benchtops in Caesarstone® Air Concrete and Designer Select Natural Halifax Oak Steamline add depth and interest to the space, along with the black tapware and handles.

"The timber-look accents are a master stroke, bringing the outdoors in, radiating a relaxing, natural warmth," says Anouk. "It's a joinery style the owner could easily transfer to other parts of the home, such as the laundry."

LIGHT TOUCH

Alisa collaborated with Kinsman to create a stylish and functional laundry and mudroom. The colour palette echoes that of her Coastal Luxe kitchen, mixing doors in Camden Coastal Oak Woodmatt and Amaro Smooth which is a stunning warm white tone. Polished Brass Matt Knob handles add to the glamorous look.

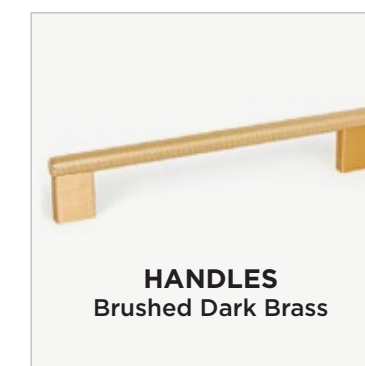

"In my laundry, I wanted a space that seamlessly combined functionality and style. With Kinsman's Camden Coastal Oak cabinetry, my vision came to life," says Alisa. "The warm tones of the wood perfectly complemented the coastal aesthetic I desired. The polished brass handles and touch catches added a touch of sophistication and elegance."

Balancing form and function, this room delivers storage and organisation options in spades! Must-have accessories such as the Hafele Tandem Sides and Laundry Wire Pull-outs make laundry day a breeze. The mudroom consists of a seating area, with space to store shoes underneath the bench, and tall cupboards on the other side to store linen or tall items such as brooms and mops.

"With Kinsman, every aspect of my laundry was carefully considered, ensuring that it not only met my practical needs but also reflected my personal style."

CLEAN LINES

Lysandra's laundry certainly has wow factor! Moody and opulent, the laundry and mudroom area are worthy of being included in her home tour! Our Bottega Oak Woodmatt doors have been used again, connecting this room to the nearby kitchen, but this time featuring the classic Shaker-style Montauk profile. The star of the design must be the Patina Brass Inserts featured across the wall cabinetry, pairing beautifully with the detailed style of our Matt Brass Knob and Bar handles. To add of sense of light to the space, our Montauk White Matt joinery was the perfect choice to complement the darker cupboards, kit kat tiled splashback, and natural stone benches.

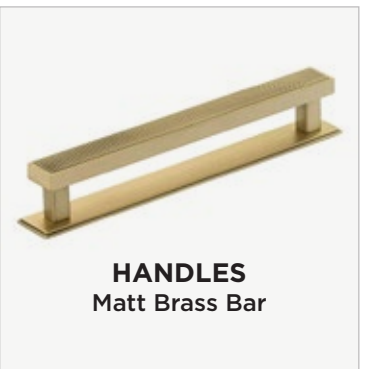

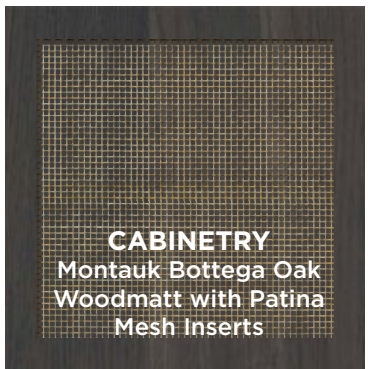

"The laundry and mudroom became a haven of organisation and efficiency, thanks to Kinsman's Montauk White Matt and Montauk Bottega Oak Woodmatt cabinetry," Lysandra says. "The Patina Brass inserts added a touch of luxury and character. The carefully selected handles and touch catches not only enhanced the visual appeal but also made the everyday tasks seamless."

The room is very multifunctional, ticking all the boxes. The laundry appliances have been placed under the bench allowing for plenty of folding space, as well as a hanging rail to dry clothing. Opposite, tall cupboards provide the perfect space to store a multitude of items and the seating nook allows for shoes to be removed before entering the home, minimising mess. The Arched Pet Bed was selected for the beloved family pets and is one of Lysandra's favourite features within the design.

"The Arched Pet Bed has got to be one of my favourite touches," says Lysandra with a smile. "It brings a sense of charm and comfort, even for my pets!"

LAYOUT LOGIC

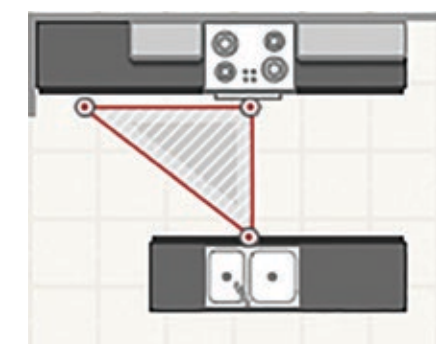

PRACTICALITY IS KEY WHEN IT COMES TO KITCHENS

The right kitchen layout will not only suit your space and your lifestyle, but enhance them. "Think carefully about how you want to use the kitchen and move within it," says Anouk Seer, Kinsman's Head of Design and Product. "Consider future use too. Will you be entertaining? Will children need a spot to do homework while you prepare dinner? They might be built for cooking, but today's kitchens do so much more. Getting it right starts with the layout."

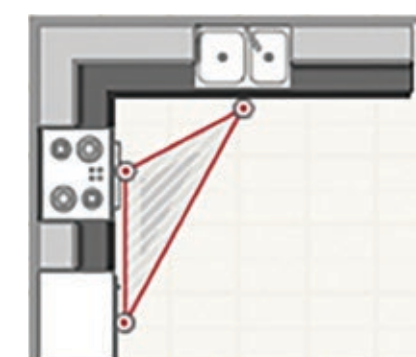

U-SHAPE KITCHEN

The U-shape kitchen is suitable for larger kitchen spaces and is a great option for families who spend a lot of time in the kitchen.

WORK SMARTER NOT HARDER

Embracing flexibility and usability, this room includes a home office, entertainment area, and mini bar. The colour palette is rich and moody, featuring a blend of dark timber, black, and brass.

Exterior doors in Chadstone Perugian Walnut form the base of the darker colour scheme, with a thick floating shelf in Dark Woodgrain sitting above the mini bar zone, and Kinsman's Matt Brass Bar handles completing the look. The result is an impressive multipurpose space where you can work or play.
