## How to plan the perfect kitchen

YOUR GO-TO GUIDE TO GETTING IT RIGHT

### Look for inspiration

"In the early planning stages, be on the lookout for kitchen looks you love. A moodboard is a great way to capture anything that appeals – cabinetry colours and textures, benchtop surfaces, paint shades and handles," says Alisa Fraser, Kinsman ambassador and former *The Block* contestant. "Collating all your favourite pictures will also help you zero in on your soulmate design." Tip: create your own moodboard using everything you love in this magazine.

### Plot your wishlist

The kitchen is the hardest working room in the house, so it needs to function well. "That means you need to know exactly what you want in your new kitchen, to ensure the design and installation process runs smoothly," says Alisa.

Here are some questions to ask yourself before talking to the professionals.

- Is there a style of kitchen you really love?
- What appliances do you use in your kitchen?
- What is your budget for cabinetry, appliances and benchtops?
- Will your kitchen flow to dining, lounge or outdoor areas?
- Do you entertain a lot?
- Do you need to keep an eye on children while you cook?
- What's your storage preference? Deep drawers? Cupboards?
- What sort of benchtop? Stone? Solid surface? Laminate?
- Would you like a butler's pantry?
- Would you like a study nook in your kitchen for life admin?

### Talk to the experts

You've done your homework, now it's time to talk to Kinsman. You can talk to one of our experienced designers in-store, at home or via a virtual design appointment at a time that suits you. "Our Kinsman consultants are experts in their field and will bring your vision to life with 3D drawings," says Anouk Seer, Kinsman's Head of Design and Product. "They will also advise you on pricing, working within your budget, and also let you know about exclusive offers and interest-free finance options."

### Watch it come to life

Kinsman's online portal lets you review and approve plans, make payments and communicate with our team through the design and install process. We're with you all the way.

*"In my kitchen and pantry, I sought a coastal oasis that combined functionality with a relaxed and inviting atmosphere,"*

- ALISA, DESIGN DUO

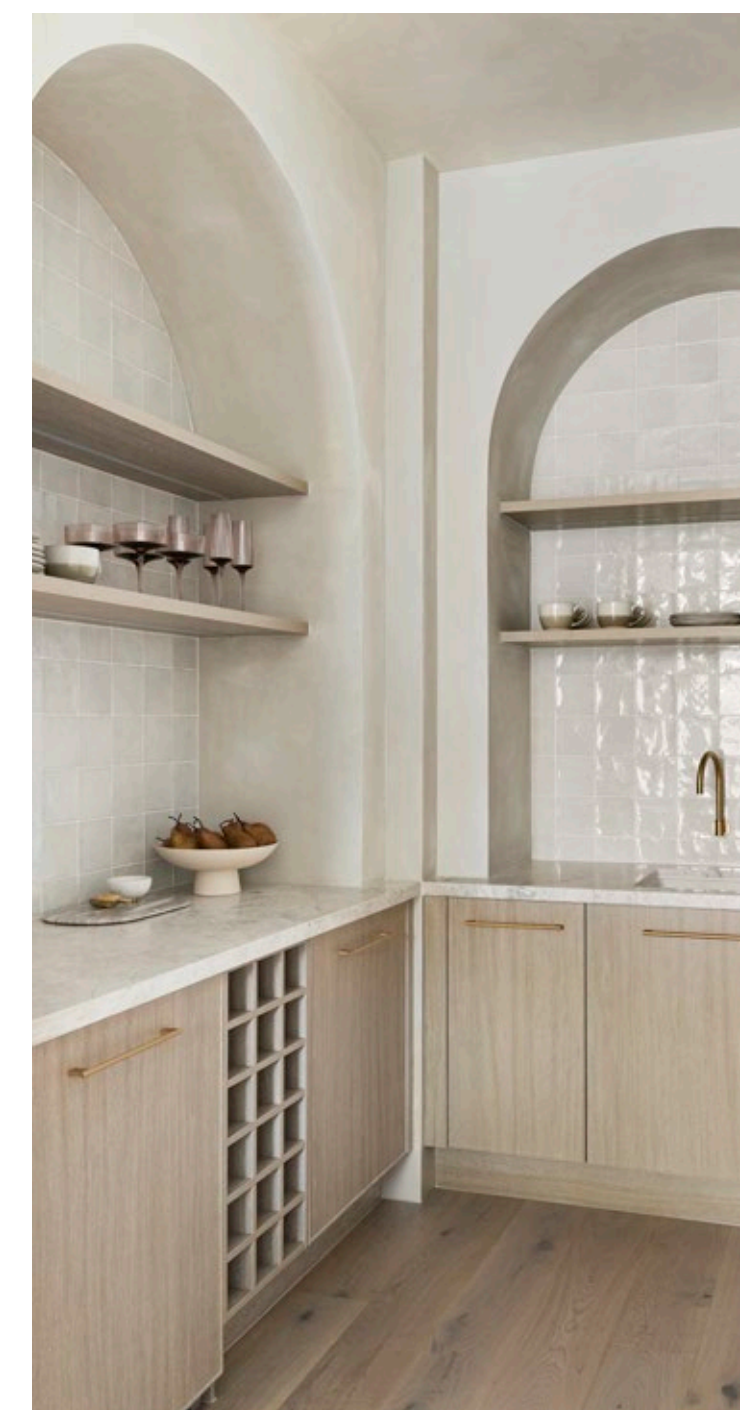

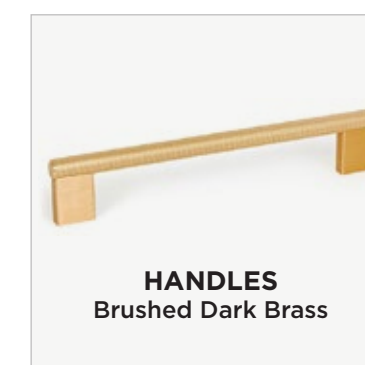

## ALISA'S KITCHEN

In keeping with the rest of her home, Alisa has produced a soft and serene kitchen look with a combination of our popular Camden doors in Coastal Oak Woodmatt, teamed with Brushed Brass Bar handles for a touch of glamour. Alisa pared the space back, opting for no wall cabinetry to keep the space spacious and airy, which can be seen in the choice to select benchtops and splashbacks in a very similar shade to our joinery. Integrated appliances such as the fridges and dishwasher are hidden behind matching joinery panels to not distract the eye, creating a seamless look.

Balancing form and function, the kitchen and pantry offer a wealth of storage solutions such as our Ninka Bins, Inner Drawers and Cutlery Trays. A blend of drawers and cupboards feature throughout ensuring there is a place for everything. A generous island bench creates the perfect gathering place within the kitchen and home, offering plenty of seating space for friends and family to gather while entertaining. "The result is a space that seamlessly blended style with practicality, making cooking and entertaining a joyous experience," smiles Alisa.

A butler's pantry is another welcome feature within the kitchen design, allowing Alisa to hide mess away while entertaining. The neutral colour palette and finishes have been continued into the pantry which showcases arched details, brass hardware, and beautiful tiles across the splashbacks.

## ALISA'S LAUNDRY

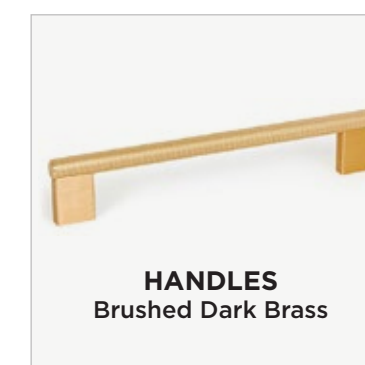

Alisa collaborated with Kinsman to create a stylish and functional laundry and mudroom. The colour palette echoes that of her Coastal Luxe kitchen, mixing doors in Camden Coastal Oak Woodmatt and Amaro Smooth which is a stunning warm white tone. Polished Brass Matt Knob handles add to the glamorous look.

"In my laundry, I wanted a space that seamlessly combined functionality and style. With Kinsman's Camden Coastal Oak cabinetry, my vision came to life," says Alisa. "The warm tones of the wood perfectly complemented the coastal aesthetic I desired. The polished brass handles and touch catches added a touch of sophistication and elegance."

Balancing form and function, this room delivers storage and organisation options in spades! Must-have accessories such as the Hafele Tandem Sides and Laundry Wire Pull-outs make laundry day a breeze. The mudroom consists of a seating area, with space to store shoes underneath the bench, and tall cupboards on the other side to store linen or tall items such as brooms and mops.

"To optimise storage and organisation, I incorporated Hafele Tandem Sides and laundry wire pull-outs," Alisa explains. "These accessories made it effortless to keep everything in its place, from cleaning supplies to laundry essentials. With Kinsman, every aspect of my laundry was carefully considered, ensuring that it not only met my practical needs but also reflected my personal style."

## LYSANDRA'S KITCHEN

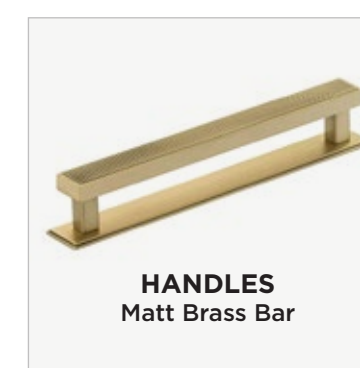

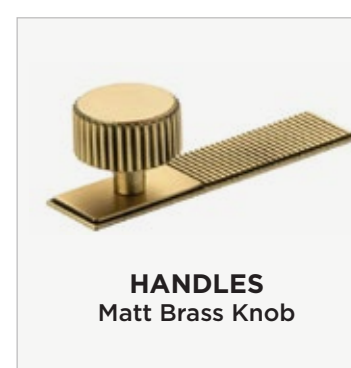

Opulent and moody, Lysandra has created a head-turning kitchen space that is the centerpiece of her home. A sophisticated colour palette has been achieved by pairing our subtle shaker-style Camden kitchen cabinets in a Bottega Oak Woodmatt finish with matte Brass handles and soft-white natural stone benchtops and splashbacks. Wall cabinetry with Vertical Broadline Glass inserts add interest to the design highlighted with Warm LED Lighting, perfectly complementing the incredible wine cabinet which sits next to it.

"In my kitchen and pantry, I wanted a space that exuded warmth and natural beauty," says Lysandra. "With Kinsman's Camden Bottega Oak Woodmatt cabinetry, the heart of my home came to life. The intricate details, combined with the timeless handles in Matt Brass, add the perfect touch of elegance and sophistication. To add a touch of modernity and style, I incorporated Broadline Glass and other accessories, creating a harmonious blend of functionality and aesthetics."

A generous kitchen island bench provides ample seating space and additional storage, while the butler's pantry offers all the necessities cleverly hidden away from view. The space includes a well-planned cleaning zone consisting of a Hafele Corner Le-Mans pull out system, Ninka Bins and Inner Drawers. "Every inch of space was optimised, making cooking and storage a breeze," explains Lysandra.

## LYSANDRA'S LAUNDRY

Lysandra's laundry certainly has wow factor! Moody and opulent, the laundry and mudroom area are worthy of being included in her home tour! Our Bottega Oak Woodmatt doors have been used again, connecting this room to the nearby kitchen, but this time featuring the classic Shaker-style Montauk profile. The star of the design must be the Patina Brass Inserts featured across the wall cabinetry, pairing beautifully with the detailed style of our Matt Brass Knob and Bar handles. To add of sense of light to the space, our Montauk White Matt joinery was the perfect choice to complement the darker cupboards, kit kat tiled splashback, and natural stone benches.

"The laundry and mudroom became a haven of organisation and efficiency, thanks to Kinsman's Montauk White Matt and Montauk Bottega Oak Woodmatt cabinetry," Lysandra says. "The Patina Brass inserts added a touch of luxury and character. The carefully selected handles and touch catches not only enhanced the visual appeal but also made the everyday tasks seamless."

The room is very multifunctional, ticking all the boxes. The laundry appliances have been placed under the bench allowing for plenty of folding space, as well as a hanging rail to dry clothing. Opposite, tall cupboards provide the perfect space to store a multitude of items and the seating nook allows for shoes to be removed before entering the home, minimising mess. The Arched Pet Bed was selected for the beloved family pets and is one of Lysandra's favourite features within the design.

"The Arched Pet Bed has got to be one of my favourite touches," says Lysandra with a smile. "It brings a sense of charm and comfort, even for my pets!"

## KRISTY AND BRETT

Kristy and Brett's kitchen is a masterclass in Classic Luxury. The light and bright look is achieved with a predominately white kitchen palette created with Fresh White Satin cabinetry paired with our new Matt White Knurled bar kitchen handles. The dramatic stone-look benchtop on the island bench ensures that the kitchen is the heart of House 3.

The kitchen has been designed to flow into the dining and living spaces for effortless open plan living. The central island bench connects the zones, offering casual seating as well as numerous kitchen drawers and kitchen cupboards to maximise storage and organisation.

The back wall of cabinetry spans an impressive 5.5 metres, evoking a seamless look with Fresh White Satin doors concealing two integrated fridges and Häfele Tandem Pantries. A chef's kitchen, the design features four ovens, and a gas/induction fusion cooktop, all from ASKO. In a clever use of space, the pair utilised a spare wall near the kitchen, adding two Wine Climate Cabinets positioned at the end of the island run, where guests can gather and sit.

The kitchen cabinet design allows for ample storage in the room, thanks to a mixture of drawers within the kitchen island bench and numerous cabinets lining the back wall, as well as the separate butler's pantry. One of our favourite solutions (and the judges) is the Secret Splashback Storage, which we have dubbed the 'Rise & Fall splashback'. Herbs, spices, oils, and other kitchen essentials can be organised within the Oak Woodgrain open shelving behind the splashback which can be raised, allowing access to pantry essentials- all within easy reach of the cooktop and ovens nearby!

"It was very helpful to work with the Kinsman team on our kitchen, explains Kristy. We knew we wanted to create a style that was classic and minimal while also maximising access and usability, and being able to design the room and select the products in person had a big impact."

## ELIZA AND LIBERTY

**B**old and exciting, Eliza and Liberty's winning kitchen design demands attention and is brimming with kitchen ideas! The orange Smeg Portofino Freestanding Cooker with matching Canopy Rangehood is the central focal point within the layout, complemented by our Oyster Grey Matt joinery, Brushed Brass handles, and dark moody benchtops.

Eliza and Liberty continued to make strong style statements in their design, opting for Cosentino Vk04 Grafite benchtops with 120mm mitred edges. This surface has also been used across two splashback zones, highlighting the bar area and cooking zone perfectly.

"We have zero experience in designing kitchens so the guidance from Kinsman was crucial for us, explains Eliza. # BEAUTY DEFINED

THE ESSENCE OF MODERN ELEGANCE

Luxury can mean many things, but when it comes to modern kitchen design, it stands for premium appliances, soft lighting and a whole lot of marble.

An oversized kitchen island that doubles as a bar-style space to entertain goes a long way to bringing that luxe feeling to life.

"You'll want to keep your appliances out of sight where possible, either in the butler's pantry or integrated behind cabinet doors," advises Alisa Fraser, Kinsman ambassador and former *The Block* contestant.

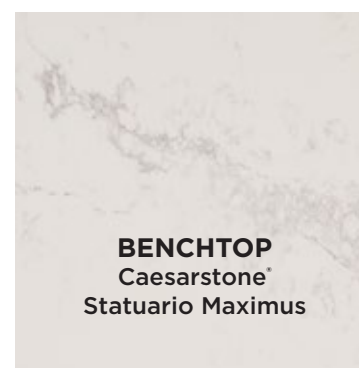

The one appliance that should be on show in modern luxury kitchen design? A wine fridge, of course. A wine fridge is the epitome of opulence, and is sure to impress your guests as you gather around your marble waterfall kitchen island for weekend drinks.

Don't underestimate the role that your appliances play in making a style statement in your dream kitchen.

# LIGHT & BRIGHT

TRIED, TRUE AND ALWAYS TIMELESS

In a Castlecrag home in New South Wales, this modern design serves up lashings of white finishes with a touch of black for contrast.

"White just works," says Lysandra Fraser, former *The Block* contestant and Kinsman ambassador. "Unlike some hues that can date with the passing of time, white is always right. It can also make a space feel bigger, so it's a great option

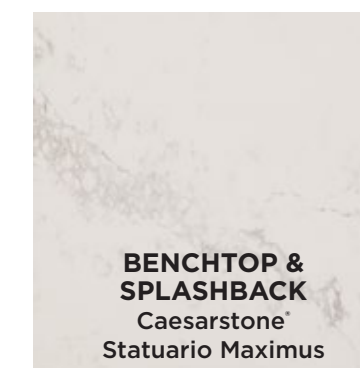

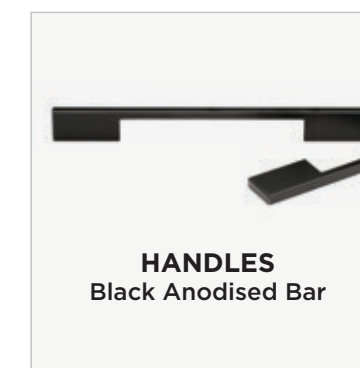

if you want to visually extend a snug floor plan." Inspired by modern Shaker style, this design features Kinsman's Somersby doors in Classic White Matt, with plenty of storage in the pantry as well as under the large island benchtop.

"The modern matt black drawer handles tie in with other black accents, like the window frames and tap, to deliver a contemporary, luxe feel," says Lysandra.

# FARMHOUSE CHIC

CLASSIC WITH A MODERN TWIST

There is nothing more charming than a classic country kitchen, and while this style may have its roots in the past, it's also a modern-day favourite. Here, Shaker-style cabinetry in a navy blue hue, paired with beautiful brass wire grilles overhead, is a nod to traditional kitchen design, while marble benchtops and brass cup pull handles add a sense

of luxury. Showcasing appliances is key, says Alisa Fraser, Kinsman ambassador. "In a classic country kitchen, cooking appliances are never hidden away. The oven is the heart of the space and the hero of the design," she says. "If you love the look of a country kitchen but want to give it a contemporary twist, look for tapware with a modern profile."

THE LIVING'S EASY WITH FAMILY-FRIENDLY DESIGN

Light and bright with a high-end feel, this minimalist design also scores major points for functionality. "This kitchen is all about modern family living and that means plenty of storage, plenty of work space, and plenty of space for friends and family to gather," says Anouk Seer, Head of Design and Product at Kinsman.

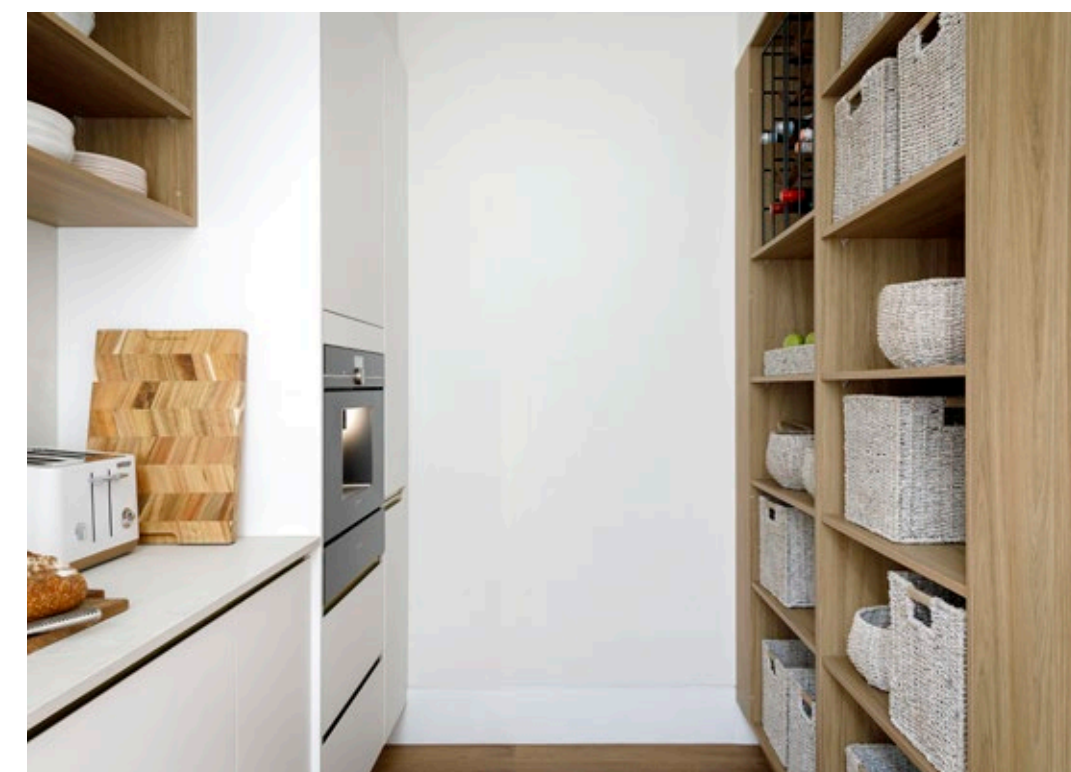

"We're talking miles of bench space, overhead cupboards, deep drawers in base units, as well as a walk-in butler's pantry."

Central to the minimalist design is a timber curved island bench and matching curved timber wall that wraps around into the pantry.

"The white-on-white colour palette is complemented by touches of timber and gold," Anouk says. "Our new Marq handles in UltraGold add instant glam and accentuate the design with not a handle in sight."

## DARKNESS REIGNS IN THIS ENTERTAINER'S DELIGHT

**R**ich, earthy tones bring a sophisticated air to this urban style kitchen, designed with busy families or keen entertainers in mind.

Central to the U-shaped design is the expansive bench finished in Caesarstone Noble Grey, perfect for food prep, children's homework or weekend drinks with friends. The marble-look surface has also been used on splashbacks for a seamless finish.

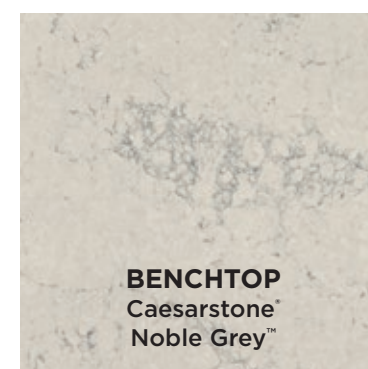

"This design is a celebration of modern good looks and functionality – it's a kitchen you'll want to spend time in," says Lysandra Fraser, Kinsman ambassador.

## URBAN CHIC A VISION SPLENDID FOR A SMART CITY ADDRESS

**T**he owner of this galley-style kitchen in Sydney could not be happier with the scene that greets her each morning – a far cry from the 1950s laminate relic it replaced. "We were going for an earth palette but we still wanted it a bit modern. I think we did really well going for a little bit of black, not too much black, and then a grey sort of neutral colour," says the owner.

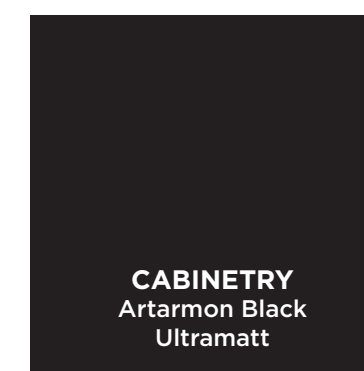

"I love the matt black cabinetry...it's easy to keep clean and doesn't show fingerprints, which is great considering all our cabinets are push-to-open. I also love the shark-nosed edging on our stone benchtops. It's very glamorous."

The benches are finished in a raw concrete look with rust highlights. Rounding out the design are two-tone cabinets in Artarmon Mink Ultramatt and Artarmon Black Ultramatt. The galley-style design also features LED strip lighting on base units to highlight cabinetry and flooring.

# THE BEAUTY OF FUNCTIONALITY

Located just 40 minutes north of Melbourne's city centre, Sunbury is a beautiful location filled with vineyards, native wildlife and a growing foodie scene.

For homeowners Danielle and Michael, building a new home in this stunning location presented an opportunity to create their dream kitchen and laundry.

The L-shaped design of the kitchen is perfect for open-plan living, with the cooking, cleaning and prep zones all within easy reach of one another. The centerpiece of the kitchen is the generously sized island bench, which spans a generous 2.9 metres. This provides plenty of seating, additional storage and a feature Bora Induction Downdraft cooktop.

The laundry, located towards the rear of the house, mirrors many of the stylistic elements of the kitchen. The use of Kinsman's Avoca cabinetry in a matte 'Classic White' and cheerful teal tiles within the butler's pantry tie the two spaces together. The fluted joinery dominates the room, with white tones chosen to bounce light around the room and create a sense of space. The sleek matte black handles complement the lines of the joinery, while the wall cabinets feature Kinsman's Volpato handles for a seamless look.

# ELEVATE YOUR STYLE

Homeowner Danielle completed a home renovation project on her beautiful property on the Mornington Peninsula, creating an open, functional, and stylish living space that she fondly refer to as 'The Treehouse.' The aim was to create a communal hub centred around the kitchen island, providing ample space for food preparation, dining, and socializing.

Opting for white Avalon cabinetry and VJ panelling, which has been used throughout the rest of the home, with a stone benchtop measuring a 4.2 metres long and 960mm wide to create a luxurious Hamptons/Coastal feel in this kitchen.

## RONNIE & GEORGIA

### FORM AND FUNCTION DOVETAIL IN COUPLE'S DREAM KITCHEN DESIGN

“Functionality is key when it comes to kitchens,” says *The Block* contestant Georgia. Her design features oceans of storage in cabinets and drawers, a butler’s pantry, servery window and central island bench. “Of course, it was also important that our kitchen looked beautiful. It’s a well-known fact that kitchens sell houses, so it was essential we got this space right,” says Georgia. The classic-contemporary design is underpinned by a palette of white, marble and timber. Ronnie and Georgia achieved the look with Kinsman’s Camden door profile in Oyster Grey Matt, open shelves in Chadstone Prime Oak Woodmatt, and Otto Antique Brass Bar handles. Uniting all elements is the Caesarstone Statuario Maximus on benches and splashbacks.

A high-end palette of ink blue, brass and marble evokes the best of Hamptons style in this handsome kitchen, making it the centrepiece of Kirsty and Jesse's home. "We wanted our kitchen to be an absolute standout, to be the heart and soul of the house," says Kirsty. "We wanted it to feel homely and the kind of space you can imagine lots of great family and friend dinners being created. Having such a large home, we wanted to make sure the kitchen also represented its grandeur." Mitch and Mark layered classic whites and greys to create this contemporary coastal-themed kitchen. Texture and muted colour underpin the look, with the couple opting for a mix of door profiles. Kinsman's new Shaker-style profile Montauk doors in Classic White Matt have been paired with deeply fluted Sorrento cabinetry in Stone Grey Matt and Classic White Matt. "While it's important for a kitchen to be beautiful, it also has to be balanced with the rest of the home," says Mitch. "The kitchen needs to be a designer piece of furniture that complements the home's overall style." The benchtops and splashbacks are finished in Caesarstone® Calacatta Maximus, which features grey and copper veins on a pure white base. # MODERN MARVEL

## PURE AND SIMPLE FOR TIMELESS APPEAL

Simplicity is key to the success of this Scandinavian style laundry, with its clean lines, timber textures and white finishes conspiring to create a modern classic.

“Functionality drives this design, without sacrificing beauty. This is a laundry to love,” says Anouk Seer, Kinsman’s Head of Design and Product.

Storage abounds in overhead and base cabinets, the oversized sink can handle buckets (or a mid-sized family pooch on bath day) and the benchtop offers a handy spot for folding clothes fresh from the dryer.

Bosch appliances – stacked to free up space in the floor plan – match overhead cupboard doors in Ballina Essendon White and simple white splashback tiles.

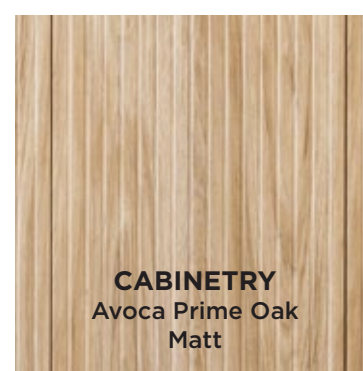

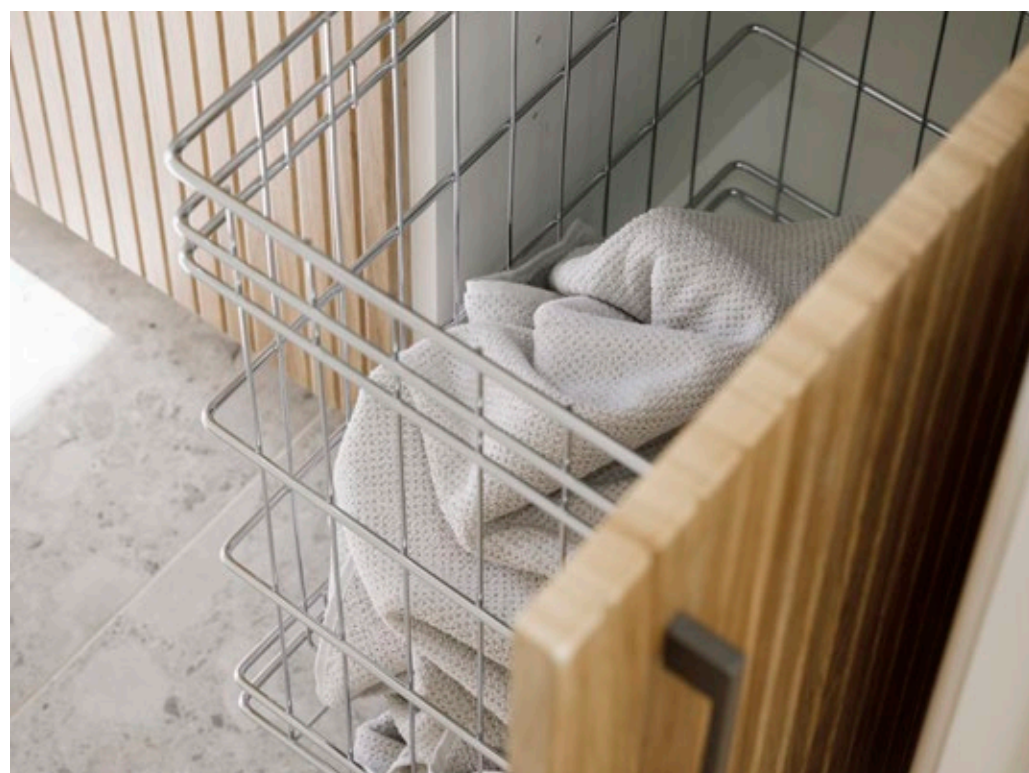

“The liberal use of white above the bench is a smart move, as it makes the ceiling appear higher and the space bigger,” says Anouk.

Anchoring the design are base cabinets with doors in Avoca Prime Oak Matt and Thin Flat Far in Graphite handles.

A smart black tap and sink, and a benchtop in an ultra-modern concrete, finish enhance the contemporary vibe.

# CLEAN AND GREEN

COLOUR PUTS A FRESH SPIN ON WASH DAY

A pop of colour can really lighten the mood, particularly in a hardworking laundry. In an echo of their green-accented kitchen, *The Block 2020* winners Jimmy and Tam opted for nature’s most soothing shade in their laundry design.

“A natural and earthy palette shines in this laundry, which embraces colour play in a successful and bold way,” says Anouk Seer, Kinsman’s Head of Design and Product.

“Avalon Oyster Grey Matt doors, a new and luxe panel-look door profile, is paired with our new Ballina Enamel strong mid-tone green cabinetry and

a terrazzo-look Frozen Terra benchtop from Caesarstone.”

In creating the pared-back space, the couple focused on functionality, including user-friendly items such as a pull-out laundry hamper, broom cupboard and a black hanging rail. Overhead cupboards provide the perfect place to store linen and towels, while the latest Bosch appliances deliver the cleaning power.

A strong lighting scheme utilising both warm LED downlights and warm LED strip lighting completes the look – a fresh design that feels just right for the beach suburb of Brighton, Victoria.

## LAYOUT LOGIC

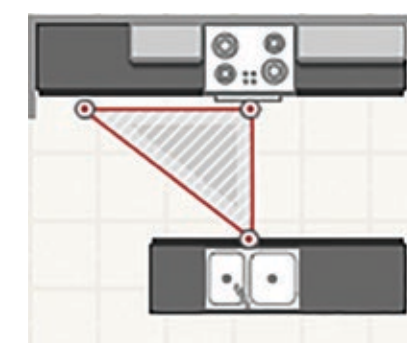

PRACTICALITY IS KEY WHEN IT COMES TO KITCHENS

The right kitchen layout will not only suit your space and your lifestyle, but enhance them. "Think carefully about how you want to use the kitchen and move within it," says Anouk Seer, Kinsman's Head of Design and Product. "Consider future use too. Will you be entertaining? Will children need a spot to do homework while you prepare dinner? They might be built for cooking, but today's kitchens do so much more. Getting it right starts with the layout."

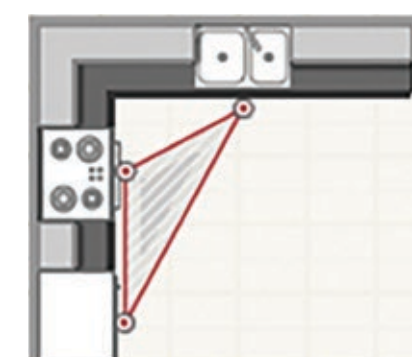

### U-SHAPE KITCHEN

The U-shape kitchen is suitable for larger kitchen spaces and is a great option for families who spend a lot of time in the kitchen.

### ISLAND KITCHEN

# OMAR & OZ

## MASTER BEDROOM WARDROBE

Omar and Oz created a Contemporary Country style for their Master Bedroom Wardrobe. Complementing the bedroom, which includes a reading nook and study area, the robe features classic Shaker-style Somersby White Matt doors, glass shelving, Matt Brass Rounded handles, and new Dove Grey interiors. Black Front Bars and Verti-Strip lighting operate on a sensor, illuminating the contents of the robe with ease.

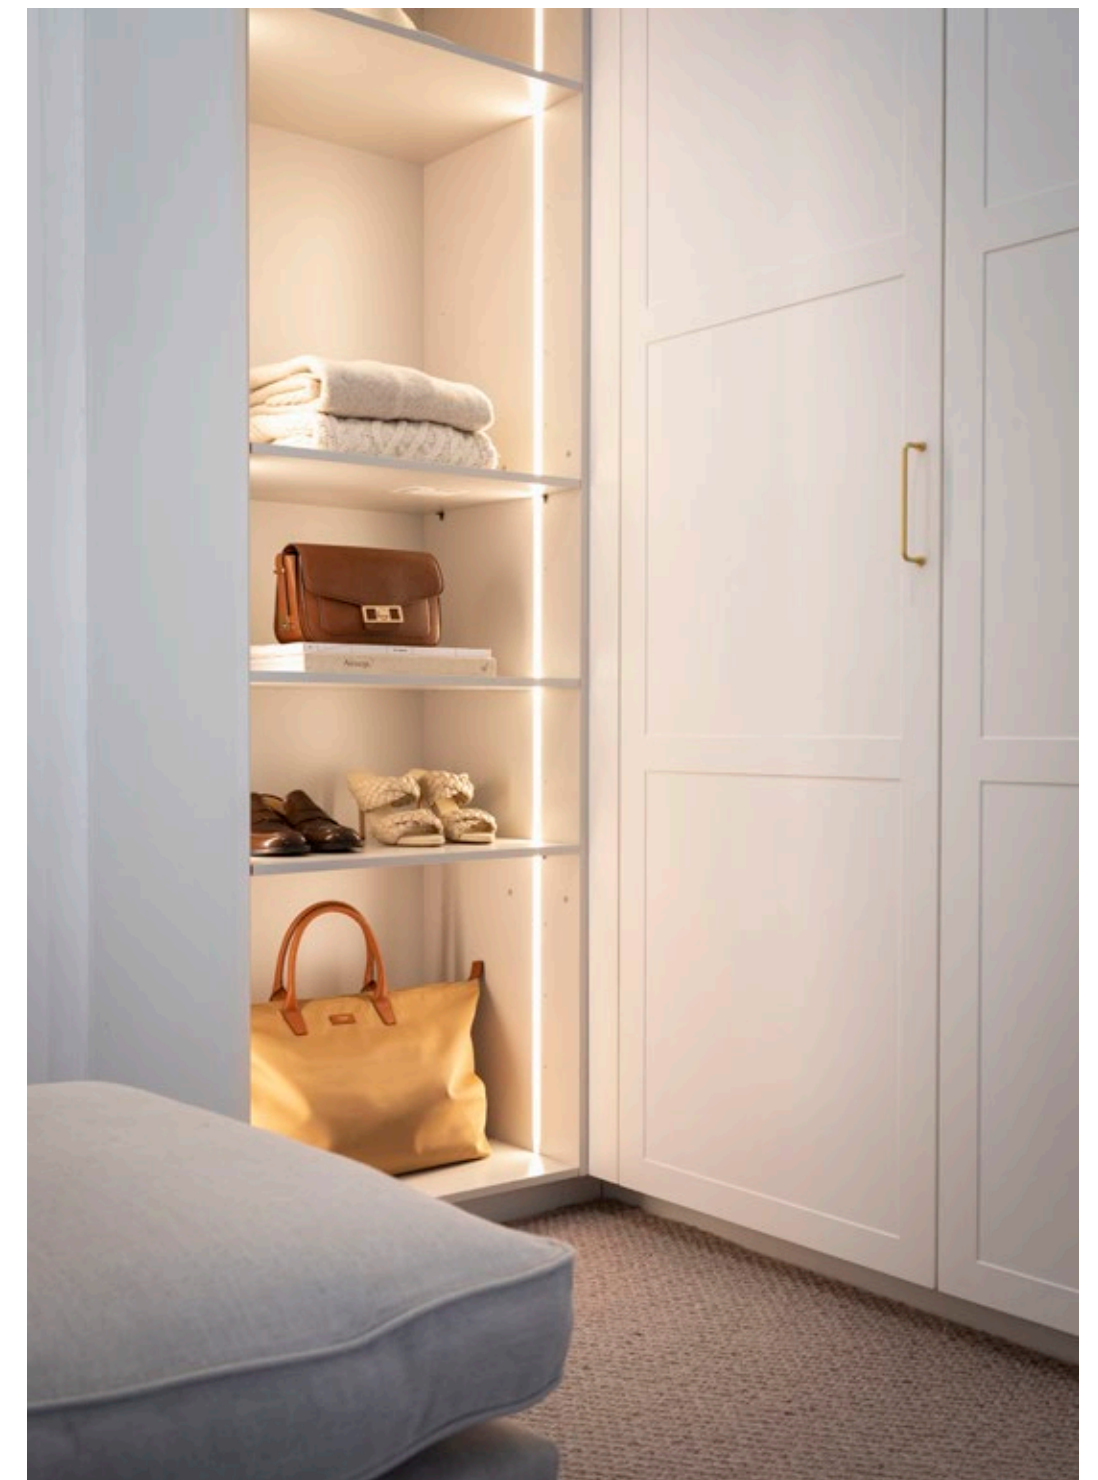

Beyond the essential storage features such as hanging space and soft-close drawers, the boys also opted to include open shelving for displaying favourite accessories, as well as luxury extras including a Trousers Rail Pull Out.

# SCOTTY & TEAM

## MASTER BEDROOM WARDROBE

Scotty and Team have chosen a bold and glamorous colour palette for their Walk-in Master Robe with a focus on deep blues and timber tones. Central to the look are the statement blue Somersby Drift exterior doors which have been paired with Chrome Plated handles and Oak Woodgrain interiors for a glamorous and modern look.

The robe features hanging space, soft-close drawers, shelving, a Trousers Rail and Folding Mirror, allowing for plenty of storage and organisation. A seating nook below a window provides the perfect place to put on shoes and enjoy the natural light. Sensor Verti-strip lighting also features within the wardrobe, perfectly illuminating the contents within.

## ALL CLASS

The master walk-in wardrobe features an 18mm shaker profile in white matt showcasing the perfect coastal style with a generous galley-style layout with a central island for additional storage.

The laundry features a similar Montauk profile and delivers smart design and style in spades, again utilising the all-white palette for synergy within Allison's beach home.

## CLEAN SLATE

TAKE WHITE TO NEW HEIGHTS

Fresh white cabinetry stars in this Hamptons-style, all-in-one living room and study.

Luke and Jasmin, contestants from *The Block 2020*, used pristine finishes and a touch of gold to create a feeling of luxury and elegance in this relaxing upstairs space.

The design features a wealth of concealed storage, as well as open shelving to display treasured books and objects.

"There is a real Hamptons luxe vibe to this study space, which has been carved into a corner of a living room - a great solution if you are short on space," says Alisa Fraser, Kinsman ambassador and former *The Block* contestant.

The all-white finishes - Classic White Matt on the cabinetry and Supa Ultra White on the desktop - ensure a smooth flow between living and work zones.

"The Brushed Dark Bar handles provide the perfect finishing touch," says Alisa.

- ALISA FRASER, KINSMAN AMBASSADOR

## CORNER SUITE

A QUICK STUDY IN SCANDI STYLE

A detached studio proved the ideal spot for this work-from-home oasis from the 2020 season of *The Block*.

The study area, roomy enough for two, is integrated into a galley-style kitchen with DeLonghi coffee machine and Bosch appliances.

Created by season winners Jimmy and Tam, the Scandi-style design features a built-in desk with benchtop in

Caesarstone Frozen Terra, open shelving in Chadstone Prime Oak Woodmatt and fresh white cabinetry finished with Brushed Brass T knobs.

White splashback tiles, continued from the kitchen zone, and statement wallpaper unify the look.

"The design makes great use of the available space, with plenty of room for a computer and all the essentials," says Anouk Seer, Kinsman's Head of Design and Product.

"The look is pared-back with enough storage to keep the desk surface clutter-free. The ideal working from home solution."

## ANKUR & SHARON

Ankur and Sharon combined a home office with a media room, choosing a rich and dark look with black and timber tones for their work-from-home space. The desk is topped in Caesarstone® Rugged Concrete with plenty of additional storage thanks to the inclusion of drawers and cabinets.

The design also includes a large span of Kinsman's CUBE Dark Woodgrain joinery along the rear wall, a stunning seamless look created as the interior carcass colour matches that for the exterior doors. Oil Rubbed Bronze Bar handles complement the dark timber doors, completing the look.

## DYLAN & JENNY

Embracing flexibility and usability, Dylan and Jenny produced a room that includes a home office, entertainment area, and mini bar. The pair choose a rich, moody colour palette of dark timbers and black, broken up with pops of brass thanks to Kinsman's Matt Brass Bar handles. Exterior doors in Chadstone Perugian Walnut form the base of the darker colour scheme, with a thick floating shelf in Dark Woodgrain sitting above the mini bar zone. The result is an impressive multipurpose space where you can work or play

# TOM & SARAH-JANE

Tom and Sarah-Jane created a stylish and functional home office with Ballina Black Wenge doors, premium laminate Tobacco Halifax Oak desktops, and Black Anodised Bar handles. The spacious layout allows for two separate desks with plenty of storage thanks to drawers. The design also includes a kitchenette topped with a 20mm countertop featuring a sink and tap, bar fridge, dishwasher, and a floating shelf in matching Ballina Black Wenge, creating a stylish and functional work or study space within their home.

# RACHEL & RYAN

Rachel and Ryan decided to create an 'adults retreat' or second living area rather than a dedicated home office within their shed, selecting Kinsman joinery for the central entertainment unit. A classic colour scheme was chosen featuring grey, black, and copper tones. Chadstone doors in Oyster Grey have been paired with Kinsman's new Brushed Black Rail handles, while a mixture of cupboards and drawers provides plenty of storage. The countertop brings a modern industrial feel to the room, evoking the beauty of oxidising rust and concrete.
