Just 4 steps to a new kitchen

1. Design appointment

One of our expert kitchen designers will visit you in your home to work through your measurements, style, needs and budget. You'll be shown colours and samples to make selections and receive on the spot pricing. Simply pay 10% to get started.

2. Site check

Once we receive all your appliance details a check measurer will come to your home to measure the site against the plans and chosen appliances, ensuring all details are accurate.

Please ensure you refer to our separate Xpress Installation Guide for technical requirements and step-by-step information on preparing for and installing an Xpress kitchen.

3. Final plans and costing approval

After the progress payment (30%) is made, the final plans and price will be supplied for your sign-off. You can view your final plans and communicate with us at any time via 'my kitchen', our online communication portal.

4. Delivery

After final payment (60%) is made, you can expect your Xpress kitchen to be delivered to your door in 10 business days. A beautiful new kitchen doesn't get any simpler than this!
